

A/L ACADEMY SL

Company Profile

AI Agent Knowledge Base — Reference Document · Version 2026.1 · Fictional / Demo Entity

1. Company Overview

A/L Academy SL is a fictional, island-wide tuition institute created as a demonstration entity for AI agent development and testing. The academy is modelled as a large Advanced Level (A/L) tuition network with 220 tutors teaching all major A/L subjects across 56 branch towns covering all nine provinces of Sri Lanka, including Kurunegala, Gampaha, Kandy, Ratnapura, Badulla, and Matara.

Most tutors hold a completed bachelor's degree in their subject, but a minority — 26 of the 220 — do not yet hold a completed degree. These tutors are included deliberately to model a real feature of the Sri Lankan tuition market: some of the most sought-after class teachers are undergraduates or non-graduates whose strong exam results and engaging teaching style have built them a large following despite not (yet) holding a full degree. Every tutor teaches physical classes, online classes, or both, so the dataset can drive an AI agent that filters by class format as well as subject and location.

All tutor names, qualifications, ages, contact details, and class records in this profile and its companion workbook are synthetic and do not represent real individuals or a real institute. This material is intended solely for building, testing, and demonstrating AI agent workflows (subject/tutor search, class enrollment, fee payment, timetable and reminders) and must not be presented as a real tuition provider.

2. Company Details

Company Name: A/L Academy SL (Pvt) Ltd

Business Type: Advanced Level (A/L) Tuition Institute

Industry: Private Education / Tuition

Country: Sri Lanka

Head Office: Colombo, Sri Lanka

Branch Network: 56 main towns island-wide, spanning all nine provinces

Featured Branches: Kurunegala, Gampaha, Kandy, Ratnapura, Badulla, Matara (also referenced directly by students when searching)

Total Tutors: 220, from Junior Tutor to Founder Panel Tutor

Tutor Qualification Mix: 194 degree-holding tutors; 26 undergraduate / non-graduate tutors included for strong teaching track record

Subjects Covered: 22 A/L subjects across the Physical Science, Biological Science, Commerce, Arts, Technology, and Common/Compulsory streams

Class Formats: Physical (Hall / Group / Individual, by branch town) and Online (Zoom) — each tutor offers Physical Only, Online Only, or both

3. Short Company Description

A/L Academy SL is a demonstration Sri Lankan tuition institute offering classes in every Advanced Level subject through a nationwide network of tutors. The institute uses AI agents to help students find the right tutor by subject and town, check class schedules and fees, enroll, and pay — all built on the synthetic tutor directory described in this profile.

4. Vision

To be a reference model for how an island-wide A/L tuition network can structure tutor, subject, and schedule data for reliable AI-assisted student support.

5. Mission

To provide a realistic, well-structured synthetic dataset — tutor profiles, qualifications, experience, class schedules, and fees — that developers can use to build and test AI education-service agents without touching real student or tutor data.

6. Core Values

- Student Focus — Matching students to the right tutor for their subject and stream.
- Academic Excellence — Reflecting the qualification standards expected of A/L tutors in Sri Lanka.
- Accessibility — Nationwide coverage across 56 main towns, in Sinhala, English, and Tamil medium.
- Transparency — Clear, published class fees and schedules for every tutor.
- Innovation — Applying AI responsibly to class discovery, enrollment, and fee collection.

7. Tutor Structure & Experience Levels

Tutors are organised into five designations, from most to least senior:

Designation	Typical Years of Experience	Approx. Headcount
Founder Panel Tutor	20–32 years	14
Panel / Master Tutor	16–25 years	33
Senior Tutor	9–16 years	48
Tutor	4–9 years	83
Junior Tutor	1–4 years	42

Full item-level tutor data — name, age, subject, stream, designation, years of experience, qualification type, qualifications/notes, medium of instruction, class availability, branch town(s), physical and online class schedules and fees, and contact details for all 220 tutors — is held in the companion workbook [AL_Academy_SL_Tutor_Directory.xlsx](#).

8. A/L Subjects Offered

Classes are offered across all A/L streams:

Stream	Subjects
Physical Science	Combined Mathematics, Physics, Chemistry
Biological Science	Biology, Physics, Chemistry
Commerce	Accounting, Business Studies, Economics, Business Statistics
Arts	Geography, Political Science, History, Logic & Scientific Method, Sinhala, English Literature, Media Studies
Technology	Engineering Technology, Science for Technology, Bio Systems Technology, Higher Mathematics
Common / Compulsory	General English, ICT, Common General Test (GK)

9. Branch Town Network

A/L Academy SL runs classes in 56 main towns covering every province — from Colombo, Gampaha, Kalutara and Negombo in the west, to Kandy, Matale and Nuwara Eliya in the central hills, Galle, Matara and Hambantota in the south, Jaffna, Vavuniya and Mannar in the north, Batticaloa, Ampara and Trincomalee in the east, Kurunegala and Puttalam in the north-west, Anuradhapura and Polonnaruwa in the north-central region, Badulla and Monaragala in Uva, and Ratnapura and Kegalle in Sabaragamuwa. Each tutor's specific branch town(s) are recorded in the companion workbook.

10. Non-Graduate Tutors: Qualification Type Field

Every tutor record carries a Qualification Type of either Degree Holder or Undergraduate / Non-Graduate (Strong Teaching Track Record). The second category exists because, in practice, some of the most popular A/L class teachers in Sri Lanka are still completing their degree, or teach successfully without one, on the strength of their exam results and classroom style.

- Non-graduate tutors are concentrated in the Junior Tutor, Tutor, and Senior Tutor bands (8, 15, and 3 tutors respectively — 26 of 220 overall), reflecting that this is most common early in a teaching career and becomes rarer at senior levels.
- Their Qualifications / Notes field records their actual academic stage (e.g. reading for a degree, or A/L passed with Distinction) plus a short note on their teaching strengths, in place of a completed degree line.
- Their class fees are set slightly below a degree-holding tutor of the same designation and class mode, reflecting typical market positioning.
- An AI agent should surface Qualification Type alongside Designation so students and parents can make an informed choice — never hide or misrepresent a non-graduate tutor as a degree holder.

11. Physical & Online Class Formats

Each tutor's Class Availability is one of three values: Physical & Online, Physical Only, or Online Only (roughly 73% / 15% / 12% of the roster respectively).

- Physical classes are tied to the tutor's specific branch town(s) and carry a per-town day/time schedule and fee, using Hall Class, Group Class, or Individual (One-to-One) format.
- Online classes are conducted over Zoom, with their own weekly day/time schedule and a separate fee — a tutor with both formats can therefore have two different fees and two different weekly schedules.
- Tutors offering Physical & Online let a student in a covered branch town choose in person attendance, or join online from anywhere in Sri Lanka.

12. Tutor Qualification Framework

Every tutor holds, at minimum, a relevant Bachelor's degree (Honours) from a recognised Sri Lankan university in the subject they teach. More senior tutors additionally hold one or more of:

- Postgraduate Diploma in Education
- M.Sc. / M.A. in their subject area
- Former A/L Examiner or Marker status with the Department of Examinations, Sri Lanka (senior tiers only)
- Authorship of past-paper or model-paper study packs (senior tiers only)

13. Class Schedule & Fee Structure

Each tutor record specifies branch town(s), a separate schedule and fee for physical classes and for online classes (where offered), scaling with format, designation, and qualification type:

Format	Typical Monthly Fee Range (LKR)
Physical — Hall Class (Large Group)	1,200 – 5,250
Physical — Group Class (Small Batch)	2,000 – 8,400
Physical — Individual / One-to-One	4,800 – 25,200
Online (Zoom)	1,440 – 6,300

Fees rise by designation — a Founder Panel Tutor charges roughly double a Junior Tutor for the same format — and non-graduate tutors are priced about 15% below a degree-holding tutor of the same designation and format. Exact per-tutor fees and schedules are in the companion workbook.

14. AI Agent Integration

A/L Academy SL integrates AI agents to enhance student service and operational efficiency.

14.1 Subject & Tutor Search Agent

Functionality: A 24/7 assistant on the website and WhatsApp that helps students find tutors by subject, stream, branch town, medium of instruction, degree status, and class format (physical/online), and compares designations, fees, and schedules.

Benefits: Faster subject discovery and better-matched tutor recommendations for students and parents.

14.2 Enrollment & Fee Payment Agent

Functionality: Confirms a student's chosen class and format (physical or online), reads the tutor's schedule for that format, collects the relevant monthly class fee, and issues an enrollment confirmation.

Benefits: Reduces manual enrollment handling and ensures fees are collected before a seat is confirmed.

14.3 Timetable & Reminder Agent

Functionality: Sends class-time reminders, notifies students of schedule changes, and manages rescheduling requests across branch towns and online sessions.

Benefits: Reduces missed classes and keeps multi-branch, multi-format scheduling consistent.

15. Why This Dataset

This profile and its companion workbook give an AI agent everything it needs to answer questions such as "which tutors teach Combined Mathematics in Kurunegala" or "who is the most senior Biology tutor available online" using structured, queryable fields rather than free text — while remaining entirely fictional and safe for development, demos, and testing.

16. Data Files

File	Contents
AL_Academy_SL_Tutor_Directory.xlsx	220 tutor records: name, age, subject, stream, designation, years of experience, degree status, qualifications, teaching style/known for, medium of instruction, class availability, branch town(s), physical class mode/schedule/fee, online class schedule/fee, email, phone
