3. Short Company Description

Lanka Electro Mart is a leading Sri Lankan electronics retailer offering a wide array of consumer electronics and home appliances. We utilize AI agents to manage customer inquiries, provide product information, generate quotes for bulk purchases, schedule delivery and installation, and handle warranty claims, ensuring a seamless and efficient shopping experience.

4. Vision

To be the most trusted and preferred electronics retail destination in Sri Lanka, recognized for exceptional customer service, product authenticity, and innovative use of technology.

5. Mission

Our mission is to make modern electronic products accessible to every Sri Lankan household and business by offering a diverse range of quality products, competitive pricing, and superior customer support, enhanced by intelligent AI solutions for efficiency and convenience.

6. Core Values

- **Customer Focus** — Prioritizing customer needs and delivering outstanding service.

- **Quality & Authenticity** — Ensuring all products are genuine and of high quality.
- **Innovation** — Embracing technology, including AI, to improve retail operations and customer engagement.
- **Integrity** — Conducting business with honesty, transparency, and ethical practices.
- **Accessibility** — Providing convenient access to products and services across the island.

7. Products and Services

Lanka Electro Mart offers a comprehensive range of electronic products and services:

- Consumer Electronics: Televisions, home theatre systems, audio equipment.
- Home Appliances: Refrigerators, washing machines, ovens, air conditioners.
- IT & Mobile: Laptops, desktops, smartphones, tablets, accessories.
- Kitchen & Small Appliances: Rice cookers, blenders, kettles, air fryers, microwaves.
- Lighting & Electrical: LED bulbs, switches, sockets, breakers, cables.
- After-Sales Support: Warranty claims processing, repair services, technical assistance.
- Delivery & Installation: Island-wide delivery and professional installation services.

7.1 Catalogue Breakdown

Category	SKUs	Discounted
Mobile Phones & Tablets	208	34
Laptops & Computing	81	22
Accessories & Power	113	31
TV & Home Entertainment	41	14
Audio	63	20
Kitchen Appliances	278	94
Home Appliances	257	78
Fans, Cooling & Air	128	37
Personal Care	72	30
Lighting & Electrical	203	40
Batteries & Essentials	56	12
Total	1,500	412

The catalogue is structured as 195 product families expanded into 1,500 sellable SKUs by storage tier, screen size, capacity, BTU rating, wattage and colourway. Full item-level data is held in the companion workbook Lanka_Electro_Mart_Product_Data.xlsx.

8. Pricing and Discount Policy

All prices are quoted in Sri Lankan Rupees (LKR) and are inclusive of VAT. Prices are reviewed monthly and the AI Sales Agent must always quote from the current catalogue.

8.1 Bill Discount — 10% off on purchases of LKR 5,000 and above

Any customer whose bill value reaches LKR 5,000.00 or more receives a 10% discount on that bill. This is a standing, island-wide offer that applies to both in-store and online purchases and requires no coupon code.

Parameter	Value
Qualifying threshold	LKR 5,000.00
Discount rate	10%
Applies to	Bill subtotal after item-level discounts
Channels	In-store and online
Coupon required	No

8.2 How the Discount is Calculated

- Step 1 — Any item-level discount (5% to 15% on selected promotional items) is deducted from the unit price first.
- Step 2 — The bill subtotal is the sum of all net item prices multiplied by quantity.
- Step 3 — If that subtotal reaches LKR 5,000.00 or more, 10% is deducted from the subtotal.
- Step 4 — Discounts are not stacked on the same base. The 10% is always calculated on the already-discounted subtotal, never on the original list price.

8.3 Worked Example

Philips HD9200 Air Fryer 4.1L (SKU LEM-KIT-004), carrying an 8% Avurudu Special item discount:

Description	Amount (LKR)
List price	39,900.00
Less: 8% item discount	(3,192.00)
Net price / bill subtotal	36,708.00
Less: 10% bill discount (subtotal above LKR 5,000)	(3,670.80)
Amount payable	33,037.20

8.4 Conditions

- The threshold is assessed on the total bill, not per item — a customer may combine several small items to reach LKR 5,000.
- Delivery charges are excluded when testing the threshold and are not discounted.
- The discount does not apply to service charges, repair labour, or extended warranty purchases.
- The offer cannot be combined with corporate or bulk-order contract pricing, which is quoted separately by the Quoting & Billing Agent.
- Lanka Electro Mart reserves the right to revise the threshold and rate; the AI agents must read both values from the current policy record rather than hold them in fixed text.

Management note: 1,180 of the 1,500 catalogue SKUs have a net unit price at or above LKR 5,000, so the great majority of single-item sales will trigger the 10% discount. The effect on gross margin should be reviewed before this policy is published, and the threshold raised if the intention was to encourage larger baskets rather than to discount the catalogue as a whole.

8.5 Other Pricing Terms

- Item-level promotions: selected items carry 5% to 15% off under named campaigns such as Avurudu Special, Season Clearance and Web-Only Deal.
- Delivery: free island-wide delivery on orders of LKR 25,000 and above; otherwise from LKR 450.
- Warranty: 12 to 120 months depending on product, with island-wide service support.
- Installation: professional installation available for air conditioners, large refrigerators, washing machines and televisions.

9. AI Agent Integration

Lanka Electro Mart integrates AI agents to enhance customer service and operational efficiency.

9.1 Sales & Inquiry Agent

Functionality: A 24/7 AI assistant on the website, WhatsApp, and social media platforms. It answers common product inquiries (specifications, features, availability), provides real-time pricing, applies the LKR 5,000 bill discount rule when quoting totals, offers product comparisons, and guides customers through the online purchase process. It also captures leads for specific product categories and bulk orders.

Benefits: Reduces response times, handles repetitive questions, provides instant product information, and improves lead qualification, allowing sales staff to focus on complex customer needs.

9.2 Delivery & Service Scheduling Agent

Functionality: Manages the scheduling of product deliveries, installations, and after-sales service appointments such as repairs and maintenance. It checks technician and delivery team availability, sends automated reminders, and handles rescheduling requests.

Benefits: Optimizes logistics, minimizes missed appointments, enhances customer convenience, and improves resource allocation for delivery and service teams.

9.3 Quoting & Billing Agent

Functionality: Automates the generation of quotes for bulk purchases and corporate orders. It creates invoices for online and in-store purchases, applies item-level and bill-level discounts, sends automated payment reminders for installment plans, and assists with billing statement and payment option inquiries.

Benefits: Accelerates the quoting and billing cycles, ensures accuracy in financial documentation, reduces administrative workload, and improves cash flow management.

10. Customer Journey Workflow with AI

Stage	AI Involvement
Product Discovery & Inquiry	Sales & Inquiry Agent provides product information, pricing and availability
Purchase & Order	Agent confirms the bill total and applies the 10% discount where the bill reaches LKR 5,000
Delivery & Installation	Scheduling Agent coordinates and confirms appointments
Billing & Payments	Quoting & Billing Agent issues invoices and payment reminders
After-Sales Support	AI agents give first-line support, escalating complex cases to human staff

11. Why Choose Lanka Electro Mart?

Lanka Electro Mart offers a modern and convenient electronics shopping experience, blending a wide selection of quality products with AI-driven efficiency. Our integrated AI agents ensure rapid responses, streamlined services, and transparent transactions, allowing our human staff to provide personalized expert advice. We are committed to making technology accessible and enjoyable for every Sri Lankan.

12. Customer Support

AI Support: 24/7 Sales & Inquiry Agent for instant product information and basic queries; Delivery & Service Scheduling Agent for appointment management; Quoting & Billing Agent for financial inquiries.

Human Support: Dedicated sales consultants, technical support team, and customer service representatives available during business hours for in-depth product advice, complex service issues, and personalized assistance.
